Professional Summary

AI Engineer with a strong foundation in Product Management and experience designing AI-powered automation solutions, enterprise AI workflows, and LLM-enabled applications. Skilled in prompt engineering, AI workflow orchestration, AI-assisted software development, and translating business requirements into scalable AI solutions. Experienced in collaborating with cross-functional teams to deliver intelligent automation platforms that improve operational efficiency and product delivery.

Work Experience

AI Engineer, The Binary Labs

Jul 2026 – Present

- Designed AI-powered automation solutions and enterprise AI workflows using modern LLM ecosystems.
- Defined AI agent workflows, prompt strategies, and AI solution architecture for business use cases.
- Collaborated with engineering teams using AI-assisted development practices to accelerate implementation.
- Designed AI-powered QA automation initiatives and intelligent workflow solutions.
- Worked with OpenAI, Claude, Gemini, LangChain concepts, FastAPI concepts, APIs, and automation platforms.
- Partnered with Product, QA, and Engineering teams to deploy AI-enabled features.

Associate Product Manager, The Binary Holdings

Nov 2022 – Jun 2026

- Led end-to-end product lifecycle for Fando, Spin It, BNRY Mart, ngage, BNRY Games and UPlay.
- Owned roadmap planning, requirement gathering, stakeholder management and feature delivery.
- Improved engagement through experimentation, analytics and data-driven decision making.
- Worked with Engineering, Design and Business teams using Agile methodologies.
- Supported products serving a large-scale digital ecosystem.

Product Analyst, Lulu Group International

Apr 2021 – Sep 2022

- Supported product optimization for Lulu India's online platform.
- Performed user research, analytics and KPI tracking.
- Improved checkout workflows and operational efficiency.

Skills & Tools

Artificial Intelligence: Generative AI, LLMs, AI Agents, Prompt Engineering, AI Workflow Automation, RAG Concepts

AI Platforms: OpenAI, Claude, Gemini

Frameworks & Tools: LangChain, LangGraph, n8n, Git, Docker (Working Knowledge)

Programming: Python (Working Knowledge), SQL, REST APIs, FastAPI (Working Knowledge)

Methodologies: Agile, Product Strategy, System Design, Stakeholder Management

Education & Certifications

Bachelor of Computer Applications (BCA), Cloud Technology & Information Security
Jain University (2017 – 2020)

Certifications:

- Product Management - Growth School
- Digital Marketing - Learn Digital Academy
